Bendigo Swap 2023:

I attended the Bendigo swap this year with my wife, daughter, a couple of mates from Swan Hill and a shopping list. We stayed overnight at Inglewood on the Friday and had a very nice meal at the Pub in Inglewood. Departing early the next morning we got to the gate at the swap at about 6.45am, no holdups getting in as the Gates opened at 6am and from what I heard there were queues then but they has gone when we arrived. Heading to the centre of the oval, we decided that was the best area to start since it had the potential to become quite warm later on and leaving the sheds to then sounded like a good idea. The weather over the course of the day wasn't too bad for November, the sun had a kick but there was a pleasant breeze if you could stick to the shade. Was looking for a Model A distributor (for a spare), some replacement sockets, Number punches, parallel punch set and consumables like angle grinder wheels. My mate was after LC Torana stainless trim parts. Within the first two hours I had most of the things I was after and the mate had his Torana bits. Happy all round! The rest of the day was spent looking for those bits and pieces I didn't know I needed! There were lots of empty sites which was a shame but I suppose it was due to the interruptions of the last few years. I ran into several club members, Rig, Phil R, Shane D for example plus some students I teach at ISC. Below is a couple of snaps I took while roaming around. The Theme of the display in the big shed was low mileage and barn find cars.

Goanna Run 2023:

Jo and I had to do a run to Adelaide on the Thursday before the Goanna run and noted the large number of hot rods heading Mildura direction. So I fired up the Model A and we headed toward Nowingi Place on the Sunday morning for a bit of a sticky beak! As we drove down the gravel road beside the bridges I noticed the side gate open so I was a bit naughty and snuck in there and around the side and

Left:

We all know that collecting can be expensive and enamel signs are but just one of the things people collect.

In the US some time ago, a new world record was set for the most expensive sign ever sold, at a cool \$1.5 million US. This double sided sign, measuring 48" in diameter, had not seen the light of day, as it was found stored in an attic. The Musgo Company operated in Michigan for less than 2 years and these signs are considered the holy Grail of enamel signs.

Then Jan & Ray in the Austin & John & Lee in the EH headed off to Murray Bridge where we met up with Peter & Honey in the Caddy we all stayed in a cottage together. We went down to the Murray Bridge Auto Collectors Club Rooms to register & pick up our rally packs for their Twin Bridges Rally we chatted to the other entrants & had a lovely casserole & dessert tea. Stevie Williams sat with us was good catching up with him again. **Saturday morning 8am** we followed the leader on our mystery run after an hour (100ks) we arrived at Goolwa. We all boarded the Cockle train for a ride to Victor Harbour was a good trip with lots of great views along the way. We all went to the pub for our organised lunch of lots of different platters. Afterwards we walked around the town before boarding the Cockle Train for our return trip back to Goolwa to our cars & drove back to Murray Bridge to get ready for our Red themed dinner at the RSL. Everyone went to the effort of having something red on some more than others but all looked great. We had a great night with a lovely meal & great entertainment Elvis sang Devil in Disguise to me & My Teddy Bear. He also sang Rawhide with Peter as he was an Indian Chief it was a great night. Next morning we had breaky at the clubrooms after saying our goodbyes we all departed. Jan, Ray, Peter, Honey, John & Lee drove 15 mins down the road to Tailem Town a Historic Village the amount of old stuff was amazing it was great looking through the Village & reminiscing. We said goodbye to Peter & Honey then they went home to Adelaide. We stayed at the Tailem Bend Motel. We walked down to the Pub for tea we had a lovely meal while overlooking the river & watched the ferry transporting cars across the river. We walked back to the motel in the misty rain lucky we only had to go 500 meters. We went to the Tailem Bend Bakery for breaky before travelling home. We all had a great time.

The following pictures were sent in from those attending the run to Benetook Farm. It looked like a pretty good roll up and the people at Benetook Farm appreciated the cars being there.

Benetook Farm pics continued.

Merbein South Car Show

The club had a great turn out to the car show at Merbein South recently. I estimate there were 30+ MVVC cars there with other clubs from the area also attending in great numbers. Exhibits were varied and this made it a great show to take in. Military vehicles, motorcycles, muscle cars, radio controlled cars and even a couple of dragsters. The weather was quite hot in the sun but not too bad if you kept to the shade and enjoyed the breeze. The two marquee's at the clubs location were well patronised. President Don got interviewed over the PA and this months cover pic also came from the show. Well done to all involved.

Werrimull Run:

While I didn't get any report of how the meal was at Werrimull, they had a timely reminder that nothing lasts (or lives) for ever! Shane Downes in the Hearse had a tyre depart this world on the way back and it must have been an amusing sight for passers by to see the coffin being unloaded from the back to enable the spare to be located and fitted. The hearse was out and about at the Merbein South run sporting a nice new set of rubber all round. It will be right for another 30 years or so!

The man behind the product.

When you buy a tyre branded "Goodyear", you may not realise that Charles Goodyear founded the company. Born in 1801, he worked in his fathers' hardware shop, but was fascinated with chemistry. He spent much time trying to make a rubber compound, using various chemicals. When he accidentally dropped some Indian rubber, treated with sulphur, onto a hot stove, he discovered the vulcanising process. This he patented in 1844, then continually fought legal battles. He was imprisoned in 1855 in France for being unable to pay bills. He returned to the US, where he died in 1860, mainly due to the many years of inhalation of the many chemicals he was using.

In 1898, Frank Seiberling started producing tyres & other rubber products and founded the Goodyear Tyre & Rubber Company, so named in honour of Charles Goodyear.

Shojiro Ishibashi founded the Bridgestone Corporation in 1931 in Japan, which has become the largest tyre manufacturer in the world. It is named after the founder, whose name translates to Stone Bridge in English.

Some more useless info that may help at a quiz game at some time.

Reminder: As cold weather sets in, animals are attracted to the warmth of your vehicle, Always check your car before driving!

Something tells me that a roadrunner and a coyote were somehow involved.

Rally Committee: nil

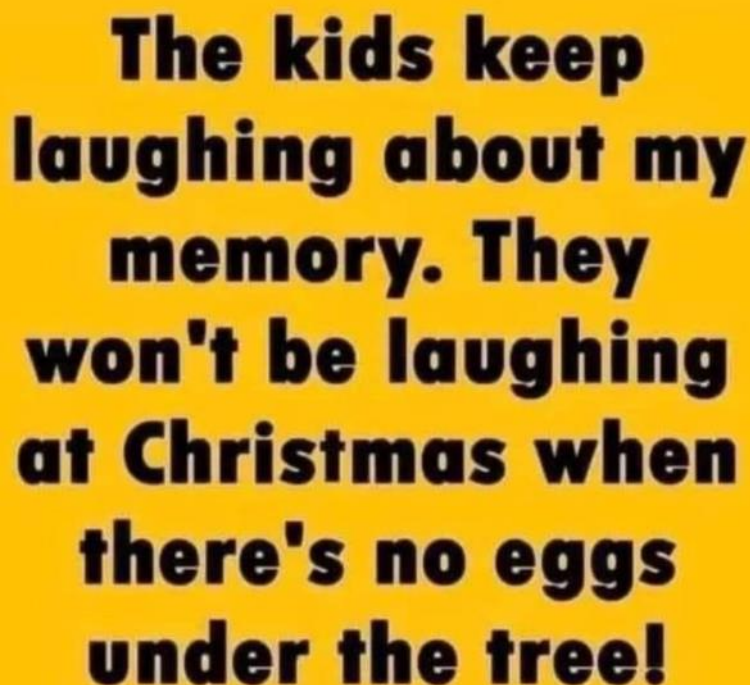

Reports were moved by Graeme Skinner. Seconded by Phil Roeszler. Carried

General Business:

1. Jenny Lloyd has the supper roster for the first few months of 2024. Please see Jenny if you are able to help. Jenny thanked those who supported the roster in 2023.
2. Leonie Lyttleton said that supper will not be required for the December meeting as she wants to use what is in the freezer so it can be turned off.
3. Christmas Party - Leonie said the meal will be at 6pm. Please refer to the Bulbhorn for details about the day. Please bring an in date item for the hamper. Hamper and hams will be raffled. Bring a salad to share.
4. Leonie's phone number has changed. Rod will send out SMS tomorrow notifying members of the new number.
5. Leonie encouraged members to think about volunteering with Sunassist as they are extremely short of volunteers. Need drivers and people to help with meals. They do a BBQ at Bunnings every second Friday.
6. Rod Gleeson said our membership cards are fairly flimsy. A local Golf club has a machine that prints name on a card that is pre-prepared. Rod will get some costs.
7. Shane Downes spoke about the need for a bigger shed. He said it had been looked into about four years ago but got put on the back burner. He said a bigger shed would mean the library can get more space and would make it easier to store the bbq trailer. Shane moved that the Club look into costings for a new shed and contact Council for their input. Robert Rigby added that paving down the side with a cover should be done at the same time. Seconded by Trevor Combe. Leonie suggested moving the current shed forward to make it more user friendly and putting the money into shades for the front lawn area. Robert Rigby suggested the current shed needs a good clean out first. Ian Cook recommended that the Club develop a master/overall plan. President Don called for a show of hands to proceed with costings. Carried.
8. Robert Rigby has received a phone call from the organisers for the Coomealla Centenary in 2024. There will be a parade on 27th April and our members will be asked to transport some dignitaries.
9. David Beasy spoke about a large collection of approx 300 cars and bikes at Alawoona, just past Loxton in S.A. If the Club is interested, David would be happy to help organise a run to visit the collection.

The raffle was drawn by Graeme Skinner. Raised \$250

Meeting was closed at 9.07pm followed by supper.
