

Casterton Motor Enthusiasts' Club CASTERNOTES FEBRUARY 2023

Wayne & Lyn in the Morrie

PRESIDENT'S REPORT

Welcome all to your February Caster Notes. Golly we are well into the third month of the year and nearly Easter time. Where has this year gone?

Mutchy Arnold & I attended the "Classics by the Sea" and met up with many friends who we don't get to see so often. This is always a terrific display of so many makes and models of various cars, motor bikes etc. One very interesting exhibit was an E.H.Holden specially designed for a disabled passenger. If you want to see a great display of so many well restored and original vehicles this is something not to be missed. It was a beautiful day right beside the sea and a date to keep free.

Our Mini Tour weekend was another great social weekend. Our visitors once again were so happy to return to meet up and have all booked in again for next year. They loved the drive to Dergholm and thrilled with the Pizzas at the Pub in the Scrub. We even had a couple of friends travel from Glen Waverley on their BMW motor bike to join with us for the day. Thanks to all the members who gave any help to make our guests welcome.

Prior to our next meeting on the 28th March we will share a **BBQ tea beginning at 7.00 p.m.** followed by our **meeting at 8.00 p.m.** at our Club shed.

The **April** meeting will be at the Senior Citizens Clubrooms as daylight saving will be finished by then.

To any member who is unwell or recovering from any illness or surgery we wish you a fast recovery and want to see you back with us really soon.

Irene

A wife, being the romantic sort sent her husband a text

If you are sleeping send me your dreams

If you are laughing send me your smiles

If you are eating send me a bite

If you are drinking send me a nip

If you are crying send me your tears

I love you.

The husband typically non romantic replied. I am on the toilet. Please advise

Little bit of Trivia

The four Golberg brothers Lowell, Norman, Hiram and Maxwell , invented and developed the first automobile air-conditioner on July 17, 1946, the temperature in Detroit was 97 F degrees.

The four brothers walked into old man Henry Ford's office and sweet talked his Secretary into telling him that four gentleman were there with the most exciting innovation in the auto industry since the electric starter.

Henry was curious and invited them into his office. They refused and instead asked that he come out to the parking lot to their car.

They persuaded him to get into the car, which was about 130F degrees inside, turned on the air-conditioner, and cooled the car off almost immediately..

Old man Ford got very excited and invited them back to the office, where he offered them \$3 Million for the patent.

The brothers refused , saying they would settle for \$2 Million, but they wanted the recognition by having a label, "The Goldberg Air-Conditioner" on the Dashboard of each car in which it was installed. There was no way that old man Ford was going to put the Goldberg's name on two million Fords. They haggled back and forth for about two hours and finally agreed on \$4 Million and that just some letters of their first names would be shown.

And so to this day, all Ford air conditioners show Lo, Norm, Hi, and Max on the controls.

(Thanks to Di James for this research)
