CLUB NEWSFLASH

- As the year seems to be flying by, we would love to see other members volunteer to fill a position on the Committee. We have a couple of spots that will need to be filled this year including Editor of Sidelights, Memorabilia Officer and Permit Registrar. If anyone would like to take over these positions, it would be beneficial if they started learning a few things before the AGM and change of Committee.
Please let a committee member know if you would like to have a go. It's easy! We also need an Activities Officer to plan our monthly end of month runs. Also an easy task as many of our destinations are an annual event.
- Apologies last General Meeting minutes not included as were not submitted in time for printing. Will include next month.

VALE KEN NEATE

It is with great sadness we advise members of the passing of Ken Neate, aged 95. Ken and his late wife Barbera were a prominent part of our club for many years. Their commitment to participation in the club continued for many years with camp out trips away and Sunday picnics being a favourite outing for them.

Below is the email with notification of the funeral arrangements for those members wishing to attend

Heinz Meixner defects from East Germany by driving through Checkpoint Charlie after removing his windshield

In the tense spring of 1963, love and daring collided at the Berlin Wall. Heinz Meixner, a young Austrian, had fallen deeply for Margarete Thureau while visiting East Germany. But for the couple, a future together seemed impossible: the newly built Berlin Wall loomed as a near-impenetrable barrier, dividing not just East and West, but families and lovers. Margarete's mother, unwilling to be left behind, insisted on joining them if they were ever to escape. Against the backdrop of political division, Meixner resolved to turn desperation into action.

His plan was audacious, bordering on reckless. After carefully measuring the steel barrier at Checkpoint Charlie, he discovered just 95 centimeters of clearance. With determination, he searched for a vehicle that could slip beneath it.

The answer came in the form of a tiny red Austin-Healey Sprite, which, stripped of its windshield and with slightly deflated tires, measured only 90 centimeters in height. Margarete took her place in the cramped passenger seat, while her mother lay curled up in the trunk, shielded by a wall of bricks in case bullets flew. Every detail had been calculated—down to the centimeter.

In the pre-dawn hours of May 5, 1963, Meixner put his plan into motion. Stopping at the checkpoint, he coolly handed over

his passport, then suddenly floored the accelerator. The Sprite shot forward, skimming under the steel beam with mere centimeters to spare. Behind them, guards froze in stunned disbelief, failing to fire a single shot. Thirty meters of black skid marked the audacity of their escape. On the Western side, American soldiers watched in amazement as Meixner, Margarete, and her mother emerged, free at last. With calm triumph, he explained, "I knew I needed just one centimeter—and now we can be married." In that instant, love proved it could slip under even the heaviest wall.

[Story from the Los Angeles Times.](#)

THE FORD FALCON XY GTHO PHASE 111

The Ford Falcon XY GTHO Phase III was a 1971 Australian-built, high-performance muscle car, famous as the world's fastest four-door production car at the time. It featured a powerful 351 Cleveland V8 engine, enhanced suspension, and a functional Shaker air intake. Developed to win racing events like the Bathurst 1000, it cemented its legendary status with a decisive victory in the 1971 race. Only 300 units were produced, making it a highly collectible and valuable vehicle today.

PART 1 WHAT REALLY HAPPENED TO BUILD No.76?

Eclipse Motors of Ballarat, Victoria, was a family run business which started back in 1937. Colin Faulkner, the dealer principal in 1971 decided for a 'demo' model, he would order the top of the line in performance, the all new XY GTHO Phase III.

Build No.76 was the first of four GTHO Phase IIIs sold through Eclipse, this one was ordered in Bronze Wine duco with a black vinyl cabin. The only option was a laminated windscreen for added safety. Registration was KXY-400 (Vic).

According to Ballarat local, Peter Wilmot, whose career has spanned a lifetime in the automotive industry, "KXY-400 belonged to Barry O'Toole, station master at the Lal Lal (Vic).

I remember it clearly parked out the front of the station. He traded it back in at Eclipse Ford for a TC Cortina four-cylinder, due to the high running costs," tells Peter, adding, "It was then sold by Eclipse from their Sturt Street and Windemere Street yard run by John Grant, who also worked for my father for many years."

Between February and March 1979, it was advertised with 61,000 miles on the clock for \$10,000, and eventually reduced to \$9,000 shortly afterwards. John Garsed of nearby, Newstead, purchased Build No.76, keeping it for a year. Bruce Treganowan, together with his wife Cheryl, already owned a Monza Green XY GT then, but had their heart set on a HO. John Garsed was asking \$8,000 for it, Bruce didn't haggle.

Not long after buying the Phase III, their pet cat peed on the bonnet where the car was parked in the shed. Bruce was recommended to a panel shop who specialised repairing exotic cars such as Ferraris, capable of repainting the cat stained bonnet. When he dropped the HO off, the proprietor moved all the Ferraris out, parking the big Falcon in the very back corner, where it would be safe. That night someone cut the floor door, and pushed the Ferraris out into the street. The GTHO was pinched. Nobody saw, or knew anything. The car just vanished, never to be seen again.

Bruce's daughter Kim tells, "It's the only time I have ever seen my dad in tears." Was it an inside jobor, was Bruce followed on the way dropping it off?

These are questions Bruce still ponders today. Bruce received a tip-off that a bloke named "Schultz" working nearby, had links to stolen Falcon GTs.

Continued..

This information was given to detective Stan Packer and detective Graham Aitken of the VicPol stolen vehicle squad, which they investigated.

Schultz's only reply was, "I know nothing." The panel shop insurance cover paid Bruce out \$20,000, which he's thankful for, as he didn't have insurance on it at the time!

Build No.76 was reported stolen on the 29th May 1982, and never seen again.
