President's Report

Welcome members to a new year for the club, I hope you all had a nice relaxing time with family and friends over the Xmas New Year break. I look forward to the coming events for this year. I would like to thank Leonie, Jenny, Gail, Peter, and Royston for the effort they put in for Bill Bennett's wake on behalf of the club a job well done.

I read this article from another club's magazine felt I should alert members to be aware when dealing with health issues and your licence.

How you can lose your driver's licence without being aware you've lost it!

As reported in the GOLDFIELDS Gazette:

This is a true story! (more stories on this topic can be found on the internet) My friend has been under the care of various medical specialists over the past few years, and has undergone various surgeries, stress tests, etc., some of which were reportable to VicRoads who required regular review reports to be sent to them. The specialists complied - emailing reviews to VicRoads after his appointments, and all seemed OK ... UNTIL a recent road-side Police check in December 2022. At 68 years of age and without losing a single demerit point in his 50 years of driving, he was booked for UNLICENCED driving. The police check revealed that VicRoads had SUSPENDED his licence on 7th July 2021, (2.5 years ago) claiming that they had not received a copy of his medical review due in May 2021. On following this up, my friend's specialists say they emailed it ... VicRoads say they never received it ... **with VicRoads advising that it was the driver's responsibility to ensure that VicRoads received the reviews.** He is a farmer living out of town. He cannot drive any vehicle on public roads to his outlying paddocks to attend his stock until he attends court – facing the likelihood of a hefty fine, being barred from driving for a period of time and maybe having to re-sit the driver licence test if it is cancelled by the court. But that's not all - when his wife drove "their" car to work a day or two later, she was pulled over following a police Number-Plate Recognition check, questioned and underwent additional road-side tests ... all because the NPR check showed that the vehicle was registered to an unlicensed driver.

To safe-guard your licence, ask your medico's / others to copy you into any emails they send to regulatory bodies on your behalf, then PRINT and FILE your copies for future reference (as computers/ phones can fail when you least expect it). If you complete paper forms, copy them before sending to them to VicRoads by registered mail, or if you hand deliver them, ask for a receipt.

This would also apply to NSW's members as well.

Regards Don

Christmas Party

There was a strong turn out for the Club's Family Christmas breakup. A beautiful meal was provided for members , thanks to those who set it up and those who bought salads or sweets along to share. Brent and Shane did an excellent job with Emceeing and running the raffle. Congratulations to those lucky enough to win a raffle prize or other costume prizes.

Australia Day at the Inland Botanical Gardens

Once again the Botanical Gardens were overflowing with people and cars for the Australia Day breakfast. The weather was perfect and members from our club, the muscle car club made sure there was plenty of vehicles to look at. The flag raising ceremony was followed by a quick speech from Mathematician Dr Clio Cresswell and then it was time to enjoy the very nice breakfast cooked by the Gol Gol Lions club.

Dr Cresswell posing with a Citroen 2CV. Dave Screaton has a slightly more raunchy photo with Clio!

The Suggestion Box!

In line with the idea brought up in the last committee meeting, members are welcome to put forward suggestions relating to any aspect of the club such as activities to do or places for runs.

Suggestions can be left in the box provided at the club rooms.

The more cynical of us might think something is a bit “off” in the way things run in the past. Has anything changed I wonder?

In the 1920's and 1930's, Los Angeles, Salt Lake City, Baltimore, St. Louis, Philadelphia Oakland, Boston, Detroit, Seattle, and other cities had sprawling electric streetcar rail lines.

Until GM, Standard Oil, Phillips Petroleum, and Firestone bought up a controlling interest in National City Lines, which owned the railways, and shut them down. This would force people to buy cars instead or ride GM-manufactured busses, fueled with Standard Oil and Phillips Petroleum, that had Firestone Tires.

CRACKED.COM

Above: A very nice 1934 Ford police car. What does every police car need?

It needs somewhere to stick your gun out the front when chasing baddies!

The following photos below were in my folder and I labelled them "Merbein" Sorry but I cannot match them to a run but it looked like a nice day regardless.

Looks like the babies are removed first! Could be very hard on the prams if there is brake failure.

PSYCHE PUMPS

Psyche Pump Station was built in 1891 by the Chaffey brothers to meet the needs of the irrigation settlement.

Water was pumped from the Murray River to Kings Billabong and then distributed throughout the area via a series of channels.

The steam-powered pump was replaced in 1959 by an electric pump. The original pump house still stands at Psyche Bend, complete with the restored original pump, and is the oldest pump configuration of its type in the world.

The steam-powered pump will be operating on Easter Sunday.

LANGTREE HALL MUSEUM

Langtree Hall was built in 1889 and was Mildura's first public hall. Originally in Langtree Avenue, over the years it has been used for a variety of purposes.

Band recitals, concerts, operettas, and dramatic performances by local and visiting performers were an early feature.

Langtree Hall is now situated at 79 Walnut Avenue, and it was once called the 'Lyric Theatre'. Since being moved to its present location in Walnut Avenue, the hall has been restored and established as a privately-owned museum by the Cornell family.

It has a stunning collection of district memorabilia.

It is open Wednesday, Friday and Saturday
